Lagermax Logistics Austria GmbH takes over Spedition Keimelmayr in Leonding – securing the future and strategically expanding the service portfolio

Lagermax strengthens its Austrian network in Upper Austria ++ Combining expertise and market knowledge to expand the range of services ++ Existing employment contracts will be maintained ++

Salzburg, Leonding, June 11, 2026. Lagermax Logistics Austria GmbH has successfully completed the acquisition of freight forwarder Keimelmayr in Leonding, subject to approval by the competition authorities. This move paves the way for a sustainable future for Keimelmayr, a medium-sized logistics company based in Upper Austria. At the same time, Lagermax is strengthening its Austrian network in Upper Austria and thereby its market position in key segments of the transport and logistics sector.

The Keimelmayr freight forwarding company has established itself over five decades as a reliable partner for customers across various industries. The previous owner has now decided to hand over the company to Lagermax as part of his planned successor arrangement. A key factor in this decision was, in particular, the desire to secure his life's work for the long term and to offer employees and customers stable prospects for the future.

“After many successfully years, it was important to me to find a solution that would ensure the continued existence of our company whilst opening up new prospects for our employees,” explains the previous owner, Hubert Keimelmayr. “In Lagermax, we have found the right partner who shares our values, appreciates our services and will continue to develop the company sustainably.”

For Keimelmayr's employees, the takeover means, above all, continuity and security. All existing employment contracts will remain in place. Customers can continue to rely on their usual contacts, high quality of service and reliable logistics solutions.

Lagermax also recognizes great potential in the takeover. By integrating Keimelmayr's expertise and market knowledge, the existing range of services will be specifically expanded. With the additional expertise of the Lagermax Group, it will be possible to offer customers even more comprehensive transport, logistics and service solutions from a single source in future.

“Keimelmayr has an excellent reputation in the market and boasts a dedicated team with a high level of professional expertise,” emphasises Alexander Friesz, CEO of the Lagermax Group. “The acquisition is another important step for us. It ideally complements our existing offering and creates new opportunities

to serve our customers even more comprehensively, particularly in the Upper Austrian market. At the same time, we look forward to welcoming Keimelmayr's employees to our group."

The acquisition creates a strong combination that brings together tradition, experience and innovative strength. Both companies are convinced that this step lays the foundation for further sustainable growth and long-term success.

About Keimelmayr

Freight forwarder Keimelmayr, based in Leonding, has around 50 employees. Its turnover in 2025 was approximately 35 million euros. Volker Auer will continue to serve as managing director. The parties have agreed not to reveal the purchase price.

About the Lagermax Group

Under the motto "Together in motion." the Lagermax Group offers a sophisticated distribution network for all customer requirements with over 85 of its own locations in 15 European countries. Borders are blurring, local characteristics remain – Lagermax turns both into its strengths. The Lagermax Group generated a total turnover of EUR 760 million in 2025 and employs 4,050 people.
